Re: Dial-A-Ride cuts

To whom it may concern,

I am very concern over the propose cuts Governor Rell is considering concerning the Dial-A-Ride program for seniors

As a widowed senior with no other means of transportation,I will no longer be able to get to Doctor's appointments,shopping and social events at the senior center.

Depending on my children for transportation is not an option for they all have families to Support and in today's failing economy can't afford to take time off from work.

I am afraid cuts in the services for seniors will not only create health problems for them But will also force many of them back on the roads.

I hope I have helped you see that Dial-A-Ride is not just a convenient social service but a Necessary health service.

Thank you for your support and work on behalf of this important issue.

Sincerely  
Ms. Marie Carson
